B. Submitting Comments

Please include Docket ID **NRC-2018-0234** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov/> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment

submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* "NRC Forms 541 and 541A, Uniform Low-Level Radioactive Waste and Manifest (Container and Waste Description) and Continuation Page."

2. *OMB approval number:* 3150-0166.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* NRC Form 541 and 541A.

5. *How often the collection is required or requested:* Forms are used by shippers Agreement States depending on specific license conditions. No reporting is made to the NRC.

6. *Who will be required or asked to respond:* All NRC or Agreement State low-level waste facilities licensed pursuant to part 61 of title 10 of the *Code of Federal Regulations* (10 CFR) or equivalent Agreement State regulations. All generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

7. *The estimated number of annual responses:* 5,600.

8. *The estimated number of annual respondents:* 220.

Note that the NRC does not collect or retain data on manifest forms and the forms are not sent to or received by the NRC. The estimates provided in items seven

and eight above are from the previous form renewal Notice. The NRC did not receive any public comment on the previous renewal suggesting that these estimates should be revised. NRC is requesting comment on the accuracy of these estimates in Section III of this notice.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 18,480.

10. *Abstract:* NRC Forms 541 and 541A provide a set of standardized forms to meet U.S. Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. The NRC Form 541 contains information needed by disposal site facilities to safely dispose of low-level waste and information to meet NRC and State requirements regulating these activities.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 27th day of June, 2019.

For the Nuclear Regulatory Commission.

Kristen E. Benney,
Acting NRC Clearance Officer,
Office of the Chief Information Officer.
